Instructions

This fitting is supplied with a GU10 lampholder.

The GU10 luminaire is to be connected directly to a Mains Voltage supply.

1. Remove the two Allen key screws which retains the stainless steel ring to the Plastic base.

2. Take out the body.

3. Remove the four hexagon nuts which retains the stainless steel ring to the body.

4. Remove the bezel and glass. Install a LED GU10 lamp.

5. Check that the top of the luminaire is clean and correctly place the glass fitted with the seal

to the fitting and fix the four Allen Key screws with hexagon nuts ."

6. Place the Plastic base in the ground, ensuring adequate drainage. Recommended 200mm minimum.

7. Make wiring using IP68 quick connectors (not supplied).

8. Insert the lighting fitting into the plastic base.

9. Fix the two Allen key screws and tighten them to the plastic base.

10. Restore power supply, switch on and test for satisfactory operation.
